

# 2-Day Track — Judging Scorecard

One sheet per team. Score each criterion out of 10 using the benchmarks. Weights are applied afterwards by the DVL team.

TEAM \_\_\_\_\_ JUDGE \_\_\_\_\_

|                                                                                                                                                                                                                                                                                                                                 |     |                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|--------------------------------------------------------|
| <div>1</div> <div><b>Innovation &amp; Novelty</b></div> <div>Genuinely new, or a rerun of something that already exists?</div> <div><div>1 Known approach, nothing new.</div><div>5 Sensible, but not distinctive.</div><div>10 Genuinely novel.</div></div> <div></div>                                                        | 30% | <div>SCORE</div> <div><div></div><div>/ 10</div></div> |
| <div>2</div> <div><b>Operational Relevance &amp; Usefulness</b></div> <div>Does it fit how the mission is actually run, and what would it be worth to MINDEF?</div> <div><div>1 No real user or mission fit.</div><div>5 Plausible user; value asserted.</div><div>10 Names the task it changes.</div></div> <div></div>        | 25% | <div>SCORE</div> <div><div></div><div>/ 10</div></div> |
| <div>3</div> <div><b>Technical Merit &amp; Soundness</b></div> <div>Does the approach hold up, and is the demo real? Do they handle non-ideal conditions?</div> <div><div>1 Slides only; cannot explain it.</div><div>5 Demo runs; parts still stubbed.</div><div>10 Works on real input; limits owned.</div></div> <div></div> | 25% | <div>SCORE</div> <div><div></div><div>/ 10</div></div> |
| <div>4</div> <div><b>Idea &amp; Direction</b></div> <div>Could this be a startup? A gut call — they were never asked to pitch a business.</div> <div><div>1 A weekend project.</div><div>5 Could go somewhere in time.</div><div>10 A real company; someone would pay.</div></div> <div></div>                                  | 10% | <div>SCORE</div> <div><div></div><div>/ 10</div></div> |
| <div>5</div> <div><b>Presentation &amp; Demo Video</b></div> <div>Are they able to communicate the value of their solution well?</div> <div><div>1 Hard to follow; dodges questions.</div><div>5 Clear, but padded or vague.</div><div>10 Tight, specific, answers directly.</div></div> <div></div>                            | 10% | <div>SCORE</div> <div><div></div><div>/ 10</div></div> |

SHOULD DVL INCUBATE THIS TEAM?

YES

NO

Tick one. Separate from the score — the strongest project is not always the best bet.

RANK

Write 1, 2 or 3 for your top three teams. Otherwise leave blank.

COMMENTS — STRONGEST THING, BIGGEST DOUBT, ANYTHING DVL SHOULD KNOW

Please write a comment for any score of 2 or below, or 9 and above.
